Re: Request for Emergency Sur-Charge implementation.

This letter will serve as a request for emergency rate relief by way of implementing an emergency sur-charge for East Slope Water Company ("ESWC") located in Sierra Vista, Arizona. ESWC is owned by Bobby Watkins. Mr. Watkins no longer has the ability to fund the ailing water system and fears the water utility will become insolvent and/or run out of water.

ESWC serves approximately 800 water customers and is in desperate need of storage with no way to obtain the funds necessary to acquire storage at this time. The system is pumping approximately 2,000,000 gallon of water a week and if the one source of water goes down there is no other adequate source of water available. Hauling will be out of the question because there is no adequate storage to maintain the entire system. One of the storage tanks that is available is 40 years old and needs to be sandblasted and recoated due to corrosion. The electrical panels need to be replaced as well.

The water table in the area is dropping drastically and the pumps are in danger of sucking air.

The system demands are causing loss of pressure and we fear the worse in the heat of the summer months. One of the well needs to be deepened as it is a fairly good well but it sets in sand and the company can only use a 7 1/2 hp pump to pull the water to the surface.

The company has been unable to generate revenues sufficient to meet its operating expenses that includes property taxes.

To date the company has amassed accounts payable of approximately \$46,000.00.

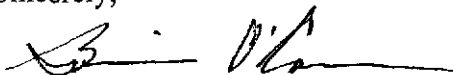

The Watkins family is unable to fund the operating shortfalls and fears the company will most definitely become insolvent. As of this date the Watkins family has advanced ESWC a total of \$53,523.00 as well as acquiring a line of credit debt of \$114,867.00.

An emergency sur-charge needs to be implemented as soon as possible to relieve the existing operating expense burden on ESWC.

We consider this an extreme emergency situation and would like to go forward with an emergency surcharge ASAP.

We are in the process of getting financial information together for this ailing system and will be preparing a rate case as well as a finance application in the very near future. Until then, it is our hope that approval of this emergency surcharge can be obtained quickly to keep this company solvent.

Sincerely,

Bonnie L. O'Connor, President
Southwestern Utility Management, Inc.
